THERE'S A Y IN EVERY FAMILY

Matt and Ashley Greiner Family

Y We grew up with YMCA activities and programs. Both of us would like our daughter and future children to have a great place to enjoy as well.

Y It is our belief that we have a collective duty as parents of the next generation to build a safe place like the YMCA for kids to enjoy. It is also important to us that we are charitable, we feel that we have an obligation to help provide for those who are less fortunate than us so that they are able to benefit from Y programs.

Y There are so many amazing recreational centers that other communities are providing for their families, that offer a variety of opportunities for youth programs and we want our hometown to have similar amenities that we can be proud of.

Y Learning to swim at Y is something that both of us did, just like many others. We believe that the phased approach is the most logical way to get a new indoor pool as soon as possible.

Y For our family, committing our personal money was a big decision that wasn't easy especially at first. However, when we thought about it spread out over 5 years and how much good would come from such a contribution, the decision became a much easier one. We are glad we made it and would encourage other families to become involved with this campaign and the YMCA.

What's Your Y

MISSION: To put Christian principles into practice through programs that build a healthy spirit, mind and body for all

2018 Capital Campaign Family Fund for the Future Drive

- \$2,000 pledge over 5 years = \$400 per year or \$34/month
